WHY IS BEQ OFFERING YOU THIS CHARGING STATION COMPARISON?

WE ARE CANADA'S BENCHMARK FOR CHARGING STATIONS.

With a 98% satisfaction rate, BEQ Technology...

- Has sold and installed over 25,000 charging stations in less than 5 years of operation;
- Is the largest sales and installation network in Quebec and Canada;
- Offers turnkey service;
- Offers the largest selection of charging stations in Canada;
- Is a master electrician.

Over the years, BEQ Technology has become THE media reference for all questions about charging stations. Media of all kinds turn to us for accurate and relevant information to demystify the use, operation and performance of charging stations.

In fact, we've appeared on numerous television programs, and we're always happy to offer our expertise.

BEQ HELPS YOU MAKE AN INFORMED DECISION

We have the expertise and experience to evaluate and regularly update a residential comparison chart. This helps our customers understand the advantages and disadvantages of each model, so they can make an informed decision..

HOW ARE CHARGING STATIONS EVALUATED, AND WHAT ARE THE CRITERIA USED?

To date, we have had the opportunity to evaluate over 20 residential charging stations.

The evaluation is based on 240-volt, 30- to 50-amp EV charging stations sold in Quebec and Canada. It is also based on the opinions of over 50 certified installers from the BEQ Technology network across Canada, as well as the opinions of over 25,000 customers.

IN ADDITION TO THE CHARGING STATION'S PURELY TECHNICAL CRITERIA, HERE ARE SOME OTHER IMPORTANT ELEMENTS WE TAKE INTO CONSIDERATION.

1. Manufacturers' after-sales services
2. Power management functionality
3. Value for money
4. Efficiency during Quebec and Canadian winters
5. Ease of installation
6. Manufacturer's application (if applicable)
7. Watertightness
8. Component quality

A GROWING MARKET

In an environment that's constantly evolving thanks to smart technology, new products and new manufacturers, we strive to offer our customers charging stations that meet the highest standards of quality and reliability.

Thank you for being part of the change with us!
